

Easily Take the Guesswork Out of Connecting Hoses with HydraGrips

- Eliminate time wasted trying to figure out which hose attaches to which port
- Prevent hoses from being hooked up incorrectly
- Reduce the struggle of trying to connect and disconnect when the hose ends are slippery, oily, and dirty
- Reduce hydraulic hoses bursts due to repeated tight bending at the fitting connection
- Make life easier for you or your equipment operators

9 Color Options

Grips are available in gray, black, blue, red, yellow, green, tan, orange & purple.

4 Symbol Options

Grips can be organized by symbol - available in pressure, return, HydraGrip or blank.

4 Size Options

Grips are available in 1/4", 3/8", 1/2" and 3/4"

3 Thread Options

Available in O-ring boss, NPT (pipe thread) or BSPD.

Every HydraGrip is built with the highest quality steel fitting, stainless steel fasteners and durable, UV resistant shells. Built to last, the HydraGrip has proven to be a tool that no implement can be without.
